

Summary

I am a **Product & UX designer** with a background in fashion and XR, focused on **systems-level product thinking**. I care about user agency, designing products that make choices easier rather than making them for people. I work across research, architecture, and interface design.

Professional Experience

Indian Institute of Technology, Jodhpur | Jul 2024 · Apr 2026
Teaching Assistant Jodhpur

- Led research activities in the field of **proximity-based** procedural animation to validate and validate for stand-alone VR, a rise of **35% in user engagement**.
- Built testing environments to bench-mark performance costs and **user immersion** in reactive XR spaces.

MintLabs Events and Production | Jun 2025 · Jul 2025
Immersive Media Intern Mumbai

- Developed a **computer vision-based** pose detection game for kiosk displays, successfully integrating basic yoga-poses with tech and **new media design** principles.
- Collaborated within a two-person team to deliver a kiosk installation and **AR experience**.

Indian Roars | Apr 2025 · May 2025
Product Strategy & Development Intern Mumbai

- Conducted rigorous UX research and interviewed **10+ industry stakeholders**, including event organizers from **Marriott** and **Johnson & Johnson**, to identify gaps in unorganized **event markets**.
- Collaborated within a **5-member team** to design unified portal for event **registration**, **ticketing**, and multiple **stakeholders management** workflows.

Projects

EventEase | Jul 2024 · Apr 2026

- Interviewed **16 agency professionals** to map **9 stakeholder categories**, 12 distinct roles, and **12 concurrent information** flows within the Indian event ecosystem.
- Designed a parent-child form system logic **eliminating double-entry**, form completion **auto-fires** agency-side **milestone updates**, ensuring one record with role-specific views.

Procedural Effects for Standalone VR Immersion | Jun 2025 · Jul 2025

- Researched what causes **presence disruption** in VR experiences and designed a **proximity-based system** that increased session duration by **35%** and re-engagement by **37.5%**.

D2C trust architecture | Apr 2025 · May 2025

- Developed strategic **Checkout Conversion Rate (CVR)** metrics to bridge a **2.4%** market performance gap between US and Indian operations.
- Evaluated Indian market **ToFU** user journeys to isolated **user-trust** friction causing **99.6% funnel** drop-off.

Education

M.Des. — XR Design | 2024 - 2026
Indian Institute of Technology Jodhpur

B.Des. — Fashion Design | 2019 - 2023
Footwear Institute of Design and Development Noida

ICSE Board | 2005 - 2019
Holy Cross School Ballia

Professional Skills

Design Thinking, **Stakeholder** and **Contextual Inquiry**, Field Observation, Affinity Mapping, **Ecosystem Mapping**, Service **Blueprint**, SCAMPER

Technical Skills

Figma, Adobe Illustrator, Photoshop, Unity, Blender, ZBrush, Substance Painter, Designer, HTML/CSS, React (basic)

Interests

Sketching, Game-design, Sensory-rooms , FOSS , Linux Ricing
