EDUCATION

INDIAN INSTITUTE OF TECHNOLOGY, JODHPUR

Jodhpur, Rajasthan

M.Des.

Jul '24 – Present

Specialization: *Extended Reality (XR) Design*

FOOTWEAR INSTITUTE OF DESIGN AND DEVELOPMENT

Noida, Uttar Pradesh

B.Des.

Aug '19 – Jun '23

Specialization: *Fashion Design*

EXPERIENCE

INDIAN INSTITUTE OF TECHNOLOGY, JODHPUR

Jodhpur, Rajasthan

Teaching Assistant

Jul '24 – May '26

- Led research activities in the field of proximity-based procedural animation to validate and validate for stand-alone VR, a rise of 35% in user engagement.
- Designed and implemented user testing environments to evaluate the effectiveness and performance costs of reactive virtual environments.

MINTLABS EVENTS AND PRODUCTION

Mumbai, Maharashtra

Immersive Experience Design Intern

Jun '25 – Jul '25

- Developed a computer vision-based pose detection game for kiosk displays, successfully integrating basic yoga-poses with tech and new media design principles.
- Collaborated within a two-person team to deliver a kiosk installation and AR experience.

INDIAN ROARS

Mumbai, Maharashtra

Product Strategy Intern

Apr '25 – May '25

- Conducted rigorous UX research and interviewed 10+ industry stakeholders, including event organizers from Marriott and Johnson & Johnson, to identify gaps in unorganized event markets.
- Collaborated within a 5-member team to design unified portal for event registration, ticketing, and multiple stakeholders management workflows.

PROJECTS

Event Ease

Jan '26 – Mar '26

- Interviewed 4 agency professionals as stakeholders and mapped out 9 major stakeholder categories, 12 agency roles and 12 concurrent information flows in the Indian event management ecosystem.
- Designed a parent-child form system logic eliminating double-entry — vendor form completion auto-fires agency-side milestone updates, ensuring one record with role-specific views.

Proximity-Based Presence in VR

Oct '25 – Apr '26

- Researched what causes presence disruption in immersive experiences and designed a proximity-based reactive system that increased session duration by 35% and voluntary re-engagement by 37.5%.

Comfort-Aid

Oct '24 – Nov '24

- Designed and built a physical prototype and designed a new transfer protocol that could be implemented quicker than the existing bed sheet transfer protocol that requires 2 people, no power supply, and fails safely in all conditions.

SKILLS & INTERESTS

Technical: Figma, FigJam, Milanote, Notion, Adobe Illustrator, Adobe Photoshop, Unity, Blender, ZBrush, Substance Painter, Substance Designer, HTML/CSS, React (basic)

Language: Hindi (Native), English (Professional Fluency)

Research Methods: Design Thinking, Stakeholder Interviews, Contextual Inquiry, Field Observation, Affinity Mapping, Ecosystem Mapping, Service Blueprinting, SCAMPER.

Interests: Sketching, Game Design, Immersive media, Open-source, Linux customization
